Appels R&I de DUT

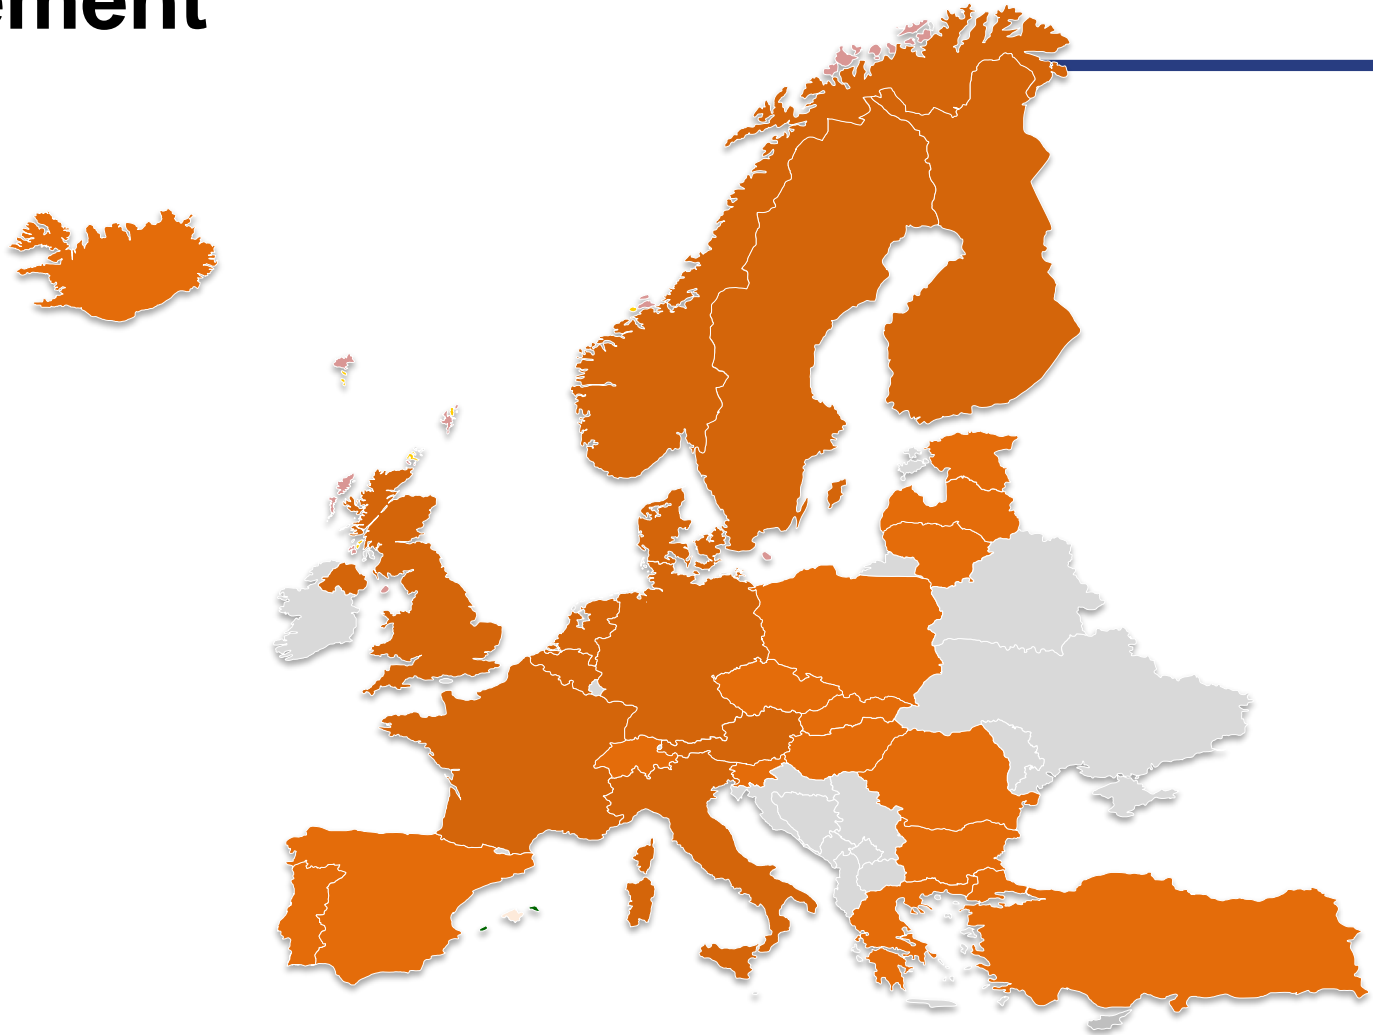

(1^{er} appel en cours de finalisation)

14 Avril 2022

Anne Ruas

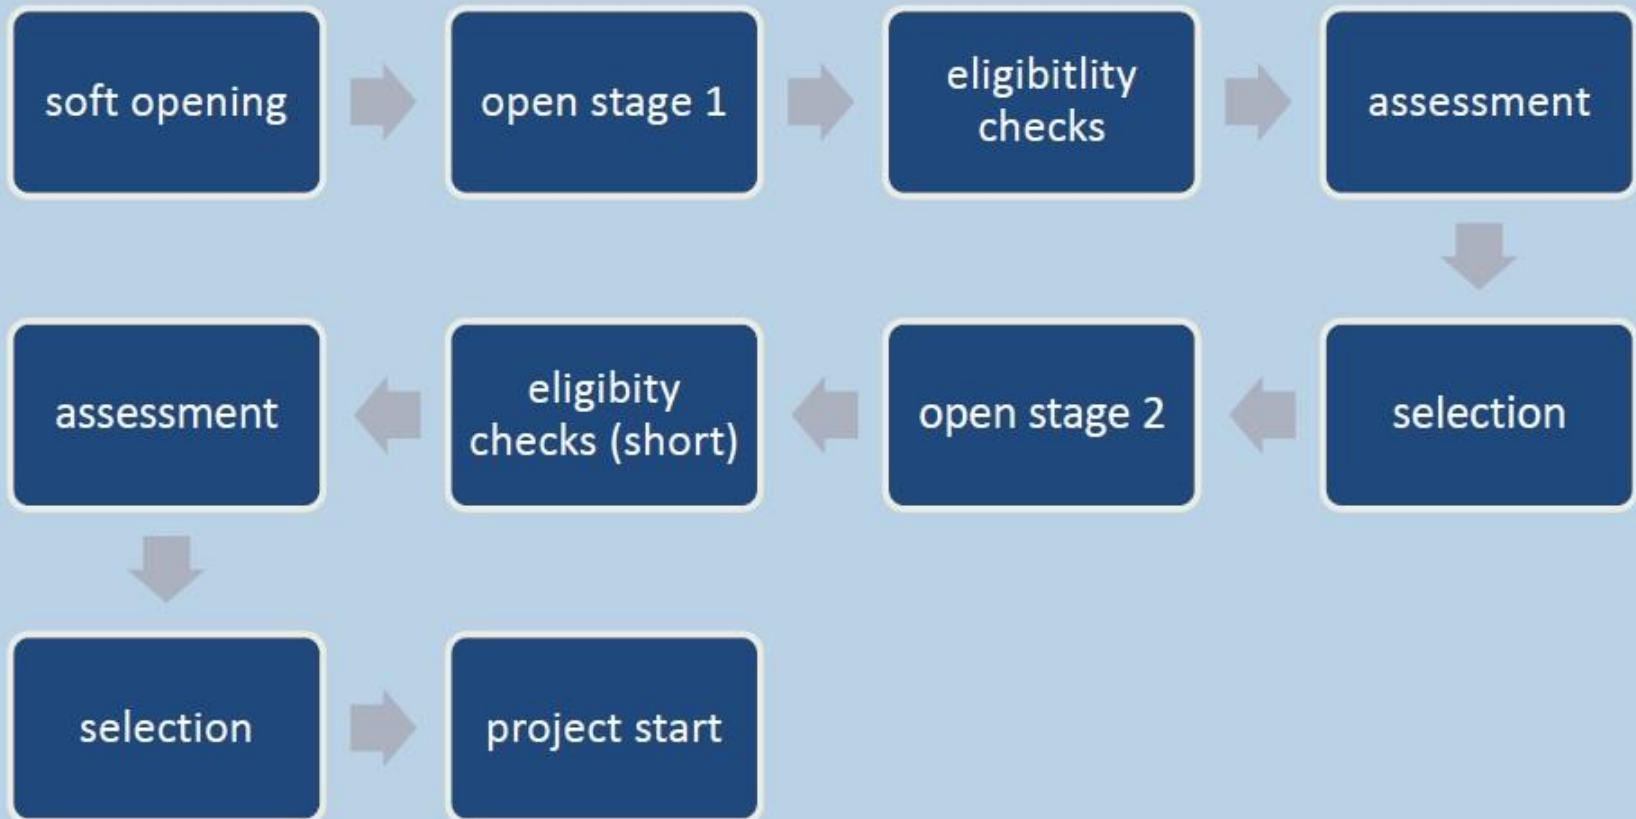

**~ 63 partenaires, 35 agences de
financement**

Soumission en 2 temps

Timeline – opening the call and the next steps

Timing

Opening

~ juin-juillet 2022

Ouverture appel 1

~ sept-oct 2022

Choix projets financés

~ juillet 2023

Principes (en cours de finalisation)

- 1 seul appel pour les 3 piliers
- projets Orientés Recherche & Orientés Innovation
- Communication sur le contenu ~ juin-juillet 2022
- Budget sera décrit dans l'appel
- Pre-proposals/full proposals must be written in English and respect the template form (in terms of overall size, limit of pages – no more than 12 pages for the pre-proposal - and characters).

Règles d'éligibilités

Même type que les ERA-NET ENUAC

- Règles d'application nationales
- **at *least three eligible applicants from at least three participating countries***

Applicants (EN-UAC)

Applicants are defined as organisations/institutions/companies (*/e.* legal entities).

The Principal Investigator (PI) is defined as the person who is the lead investigator for an Applicant.

The Main Applicant coordinates the whole project.

In addition, a proposal must have at least two additional Co-applicants.

The proposal may also include Co-operation Partners.

Each PI must only participate in a maximum of two proposals, and only once as the PI of a Main Applicant

Applicants (EN-UAC)

Applicants can be organisations such as:

- Companies (from industry/large companies to SMEs)
- Cities, municipalities, regions, regional development agencies, public transport authorities
- Consumers (e.g. business enterprises, test households, etc.)
- Citizens' representatives, NGOs
- Research organisations (universities, university colleges, research institutes or other authorities with research undertakings)

a specific funding agency may not fund each type of organisation. If a partner is not eligible for funding, the partner can still participate as cooperation partner.

Applicants (EN-UAC)

- Research organisations
- Urban government authorities
- Companies and commercial organisations
- Consumers
- Civil Society

For EN-UAC : At least one consortium partner must be an urban public authority

Urban public authority (EN-UAC)

an urban public authority for ANR is a “collectivité territoriale (communes, départements, régions, collectivités à statut particuliers, collectivités d'outre-mer, EPCI, groupement de collectivités ...)”.

At least on French Research Entity (EN-UAC)

A proposal eligible for an ANR funding must involve **at least** one French public research entity and/or for diffusion of knowledge (e.g. EPST, university, “EPIC de recherche”) or one private research entity and/or for diffusion of knowledge which has its headquarters or a subsidiary in France and which is not a commercial society.

Funding (EN-UAC China Call)

The funding rate is determined according to the classification of the entity in the European regulation.

- For entities eligible for a funding “à coût marginal” (**public entities**) ANR grants cover only additional costs of the research projects (**100% cout marginal**)
- For entities eligible for a funding “à coût complet” (**others**) ANR grants cover the whole costs of the research projects according to different rates depending on the European category. The determining criterion is the exercise of an economic activity:
 - For associations that are Research Organisation (according to the European regulation), ANR grants cover **50% of the full costs** of the research projects;
 - For entities are Company (according to the European regulation): SME, ANR grants covers **45% of the full costs, 35% for experimental development**;
 - For large companies, ANR grants cover **30% of the full costs for basic and industrial research projects, 25% for experimental development.**

For EPIC research organisations (CEA, BRGM, CSTB ...), ANR covers 50% of the full costs of the research if a company (trading company) is in the consortium, self-funded or funded by ANR

Attendus

- Pluridisciplinaire, en lien avec la société
 - Transdisciplinarity, involvement of “stakeholders”, practitioners, citizens, community groups, NGOs
 - Outputs and outcomes of the projects, broader impacts of the proposed activity
- Détail
 - Géographie, Urbanisme, Droit, Economie
 - Science de l’environnement, climat, thermique
 - Agriculture
 - STIC, SIE, SIG
 - Matériaux, construction
